I agree that this week will be difficult to schedule anything. Please follow up with John to see what they want to cover and suggest we talk in early January.

Thanks  
D

Hi Darcy: I would suggest I (or you) respond to confirm that Powertech has no further comments beyond what they sent us next week. If they don't, Valois and I would prefer to wait until after the holidays so that we can thoroughly review their comments in case we have any clarifying questions, etc. for them. This is a pretty full week for both of us.

I can also get clarification on the reason for a call and if there is any urgency to talk this week.

Thanks,

Douglas

Darcy, Douglas, and Valois,

Would you be available this week to discuss our comments? We are generally thinking a high level discussion. We also would like to share with you the recent decision from the ASLB which is attached and came out a few days early. All issues were resolved in favor of NRC and the proceedings are now closed.

Please let us know your availability.

Thanks.

John
